**P R E S I D E N T - L A J U A N A G I L L E T T E**

August is almost gone and hopefully the heat with it. The storms we have been having have cooled things off nicely and filled our lakes with water.

Our children are back in school, and we need to be thinking of the School Board and the 2024 election. We need conservative people on that board so that some of the things happening in other states and cities do not happen here. We do not want any "woke" in our schools. The very least we can do is protect our children from this lunacy.

This is not an election year, but it is. The candidates have declared early making it an "election year". And once again, the most important election of our lifetime. We've had a few but this is the culmination of them all. First it was the election of Obama, then the Trump second term and now it is to stop communism. We must win this one!

Biden and his crew are throwing everything they have at President Trump to try and stop him from becoming President again. Never in our history have we seen anything like this. Prosecuting and jailing political adversaries! That alone shows how far into communism we have come in two and a half years under Biden.

We need someone who has been there in Washington in the oval office, who knows what to do and President Trump is that person.

Please get out to vote and make sure your friends vote too.

God bless America, LaJuana Gillette President 2023

**Brett Baier must not moderate the Republican debate**

By [Albert Veltman](#)

Brett Baier is not qualified to moderate the Republican debate on August 23 in Milwaukee. Mr. Baier had a [much-publicized interview](#) with President Trump a month ago. This interview amply demonstrated Baier's antipathy toward the president. Most of the time, he appeared to be cordial towards the president; however, when Trump brought up the topic of the stolen election, Baier became abusively hostile and interrupted his guest incessantly and would not let the president talk.

Right after the election, the charges of fraud surfaced, and at every opportunity, the Republicans were asked by the media and Democrats if the election was stolen and derided anyone who agreed that it was and demanded a denunciation of that charge. Many Republicans who were sceptical of an honest election caved and denied any electoral chicanery. "This was the most honest election ever" became the media mantra. Later, we learned there was plenty of interference. The [letter signed by 51 former security officials](#) claiming Russian disinformation regarding the Hunter Biden laptop, along with interference by the FBI, CIA, DoJ, Facebook, Instagram, and Twitter, is all well documented. All this interference plus ballot irregularities amounts to stealing the election. You can call it "disinformation" or anything you like, but it helped to throw the election. The evidence is overwhelming and incontrovertible that the 2020 election was stolen.

Brett Baier is either willfully ignorant of these events or simply biased. Either way, he is unfit to be a moderator. His hostility and bias disqualify him. He is a Chris Wallace wannabe and just as hostile as Leslie Stahl.

Please, don't replace Baier with Neil Cavuto, who surprisingly is worse than Baier. Cavuto invariably has Chris Christie, Karl Rove, or Asa Hutchinson on just to bash President Trump, and all happily comply. Rove always has his whiteboard and manipulates facts to bash President Trump. He must not be anywhere near a camera or microphone.

One question at the debate will come up: "Will you support whoever will be the nominee?" If President Trump does participate in the debate, he must answer a qualified, "Yes, and I expect that if I win, all Republican lawmakers including Mitch McConnell, Kevin McCarthy, and Mitt Romney will actively campaign and fundraise for me. And I include Paul Ryan and Ronna Romney McDaniel to do so as well." If the Republican class does not entirely support Trump as the nominee, any resulting loss will not be the fault of President Trump, but the fault of the NeverTrumpers and the lukewarm ones.

I'm tired of hearing that President Trump is a three-time loser — elections of 2018, 2020 and 2022. Those losses were caused by the Republicans who opposed Trump and sabotaged those campaigns. They are the ones responsible for the mess we're in with the Biden regime. President Trump did not lose those elections.

Apparently, Tucker Carlson is still officially an employee of Fox News. Tucker would be a great replacement for Brett and would treat all with honesty and would be a top draw.

## SPOTLIGHT MEMBER: PAT LANDRY

I was born in Putnam, Ct, January 26, 1938 on a Wednesday morning at 1:10 am. I grew up in Putnam and was very active in school with softball, basketball & cheer leading. I'm the 3<sup>rd</sup> oldest child of ten so you must know that I did a lot of babysitting and helped around our home. Life as a child was very difficult but I won't go into this. I come from a small area called the 10 town area. I moved to Danielson, Ct. when I got married, which was only 10 miles from Putnam. Great area to live & raise children for we lived in the country. I stayed in that area till I moved to Arizona in 1980.

I discovered Lake Havasu in 1975. My husband & I flew out on a McCulloch flight from New York with friends who had already bought a lot here from McCulloch. Needless to say, in 1975, my husband & I bought a lot too. McCulloch would fly people out for free & you would stay in their Hotel which is now the Police Department & our City hall.

I had six children and was very involved with their activities of baseball, basketball, football, drill team, girl scouts, cub scouts & 4-H. I can't begin to tell you how many times I was a chaperone. I was the neighbor that did the driving from my house to the school for the activities. I was a 4-H horse leader & coached the girl softball team. The first year I coached the softball team we won the championship. I so enjoyed being involved in my children's lives. At this time, I was a stay at home Mom but worked only on a Friday what was called Fish Chip day. This gave me extra money for the kids.

I'm very sad to say that I lost my two middle children. On Dec.27, 1961 my youngest child Misti Dawn died at the age of 5 months from SIDS or what is called crib death. A little over 10 years later my daughter Cheri Lyn died at the age of almost 13 from a Brain Tumor. This wonderful child was ill for 3 years & died February 28<sup>th</sup> 1972 A very sad tragic time in our lives for many years. It felt like my whole life stopped. I knew I had to do something, I wasn't able to cope with much. I finally went to get help which was the best think I could have done. The other children needed me but I needed more in my life with losing Cheri, so I went to the school where she attended & applied for a job.

When my youngest child started school, I went to work in the school system as a certified teacher aide. I had around 6 to 10 children in two classrooms. My job was to try and bring their grades up to at least their grade level. Besides working and being busy with children & their activities I started night school at our community college. My goal back then was to become a teacher.

My husband kept begging me to move to Arizona but I wanted to wait till the 2 left at home had graduated. Needless to say, I finally gave in & said I'd move to Arizona.

On July 11<sup>th</sup>, 1980 my two children and our two dogs arrived in Lake Havasu City at 3:10 am. The other children stayed in Ct. for they were married and had already started their own lives. So here I am still in beautiful Lake Havasu City for over 43 years. In 1980 I had a job with Havasu Christian Pre-School & I taught pre-kindergarten. I have to say another sad time in my life was 3 years after moving to this beautiful city, my husband went out of town to get another job & left my 2 girls & me here in Lake Havasu & never returned. I worked several jobs for several years to take care of my girls in order to be able to keep our home.

I knew then I needed to make more money, so I changed my career and decided to go into Real Estate and was very active till 2011. I tried to slow down but kept getting referrals so today I handle my past customers & referrals only due to the fact I'm now 85. I worked for the Developers of Lake Havasu City called MCO which was located in a beautiful 2 story building where CVS is now located. It was a fun place to work for many people were brought in from California & put up in a nice hotel for 2 nights & I got to tell them about how Lake Havasu came to be, We took them on a boat ride & many bought McCulloch lots from me. I did this for several years till they left town around 1989 and we became Coldwell Banker.

I always treated my clients like they were my good friends, of course most of them became my good friends. I believed in education, so I kept going to school to receive a few designations and my Broker's license. I have received many awards as a REALTOR® but the best award was when I was chosen to receive the REALTOR® Vision Award of the year IN 2005. I've always been active with our Association for it is the backbone for our REALTORS®. My son moved out here in 2003 and he became my partner. That is when I was asked if I would be willing to get involved again with the Association. I ran for Vice- President and then President-Elect and became President for the 2009 year. During this time, I was able to travel several times to Washington DC for our National Conventions. It's amazing what you learn at these seminars & the wonderful history one gets to see about our great Nation.

In 1987 I had saved enough money to get my daughter Monique in College. She attended Grand Canyon Christian University & received her Bachelor of Science degree in Nursing in 1991 I managed to get my daughter Denise back in college & she graduated from UNLV with a Bachelor of Arts degree in teaching.

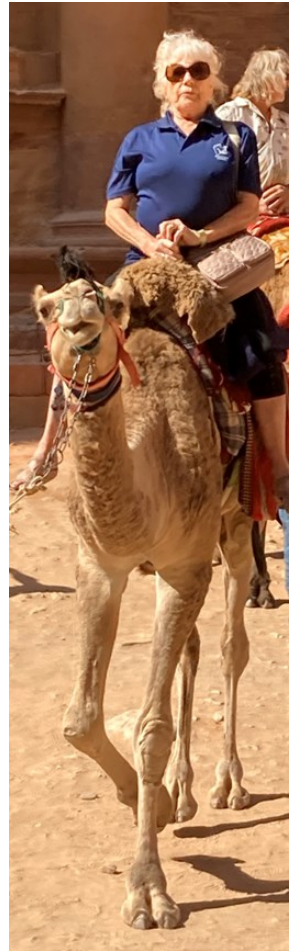

Now it was my turn to save for me. I'm now able to treat myself to a nice trip once a year. In 1991 I did take my daughters Monique & Denise on a Caribbean Cruise for their Graduation present. In 1995 I started traveling with friends & on my 80<sup>th</sup> birthday I treated myself with my dear friend Terry Daley to a 17 day Panama Canal Cruise & both of us celebrated our birthdays on the same day. We both went zip lining in Costa Rica & got to see 5 different countries.

I have served on several committees here in Lake Havasu over the years. I was on the City's Housing committee, the (CIAC) Community Investment Advisory Committee & the 20/20 Vision Committee for our City. Our city came in to win 2<sup>nd</sup> place for American Best Communities to live in. How proud we all are for our City to receive this award.

I volunteer once a month to sit Republican Headquarters & I'm now a PC with MCRCC I also try to attend all the Charity walks & do their fitness walks. I'm active with exercising by line dancing & yoga once a week at the senior center & belong to Planet Fitness. Of course, all this ended when Covid hit but I'm trying to get back into it again.

I'm a Member of Hilltop Community Church & I'm a Greeter once a month there. I attend the Life Changing Bible groups & the Women's Ministry. I also occasionally go to Calvary Baptist Church on a Saturday night that I so enjoy. My most recent favorite trip I took was in October 2022 to Israel. I was Blessed to be Baptized in the Jordon River by Chad Garrison from Calvary Baptist Church. What a privilege it was to walk where Jesus walked. We went into Petra where I was able to ride the camel. The beauty is breathtaking. Nothing can compare to this trip.

I'll try to continue to help where needed till Jesus comes to bring me home.

# Hating Trump corrupts the liberal media

Half the country has no idea why the front page of Thursday's New York Post was so hilarious.

That's because, thanks to the liberal media, half of the country still has no idea who Hunter Biden is, or why he is in trouble for raking in millions for his extended family from foreign businessmen by selling access to his father Joe's "brand" and political influence.

The Post - which is famous for its funny front pages and lively conservative journalism - brilliantly summed up the Biden Family's international influence-peddling racket on Aug. 10.

Its front page carried the huge headline "JOE FOR SALE" next to a big photo of a smiling President Biden holding a sign that said "Open for Business - Price \$20 million."

The Post also asked a question that would have mystified the half of the country that only watches MSNBC and reads the New York Times - "Foreign clients gave Hunter a Porsche, a diamond and millions of dollars - What did they THINK they were buying?"

The Blue half of the country would never get the Post's jokes about Hunter and Joe Biden.

That's because they have hardly ever heard any news about Hunter or the latest reports detailing how he and his dad worked their lucrative family side-gig.

The Post's journalists have done heroic work on the Bidens - unlike the liberal mainstream print and electronic media, which is so biased, partisan and dishonest that it has barely mentioned Hunter's name.

For four years the liberal media have shown zero interest in investi-

**MICHAEL REAGAN**  
COLUMNIST

gating the sleazy and incriminating contents of his "Laptop From Hell" or covering the ongoing investigations by House Republicans into Hunter's banking and money-laundering tricks.

The left's partisan journalists are still so fixated on hating Donald Trump and making sure he never returns to power that they will never cover the blunders, failures and crimes of the Bidens.

Did the Biden administration wreck the economy with high inflation, create a crisis at the Southern border, cripple our oil and gas industries, botch the withdrawal from Afghanistan, fail to prevent the war in Ukraine and mismanage the war on Covid?

The liberal media's response - "We don't care. We hate Trump."

Did the Biden Justice Department overdo the prosecution of Jan. 6 rioters for political reasons? Did the Biden FBI unfairly treat conservative Catholics as possible terrorists?

"Don't care. We hate Trump."

Did Biden's CDC kowtow to the teachers union to keep schools closed for too long and lie to the country about the safety and efficacy of the covid vaccines?

"Dunno. We hate Trump."

So now, after three years of Biden incompetence and lies, the liberal media refuses to admit that the country is a mess in many economic

and social ways.

We have huge homeless populations living on the streets of Los Angeles and San Francisco. We have smash-and-grab gangs in Beverly Hills that go unpunished and we have chained up ice cream freezers in drug stores.

We have tens of thousands of illegal immigrants from dozens of countries overwhelming cities like New York and Boston. We have Fentanyl Island in Oakland, Ca.

What is President Biden and his administration doing to fix all these national and local problems? Is he to blame?

Don't expect the liberal media to ever press Biden to answer that kind of question. They're not interested. All they know is, "We hate Trump."

The liberal mainstream media hate Trump so much they'd never do or say anything that might help him win or hurt Biden in 2024.

I fear for 2024. I'm truly concerned about Republicans winning back the White House. I don't think Trump can win and he's not going to let anyone else try.

My greatest worry is that if he doesn't win the nomination he will sabotage the nominee, guarantee a Democrat victory and destroy the Republican Party - if he hasn't done that already.

Then there'd be a legitimate reason for me to agree with the liberal media who say "We hate Trump."
