P R E S I D E N T - L A J U A N A G I L L E T T E

We are being asked by our government...no, maybe that's not "asked", instead we are being told by our government that it is OK to kill babies, mutilate young children, change our sex and attack people who don't agree with all that depravity. Even ten years ago we would have all said it's impossible that our government would believe this way, but here we are!

Where are the Americans?

Well, I know where some of them are....boycotting Bud!! We really should do that more often.

Why are we standing by and allowing political prisoners? Why are we allowing the liberals to attack a Republican Presidential candidate? Are we afraid we will be next? This has to stop and who is to stop it if not us, the American people? I think we are becoming complacent. We are hoping somehow it will just go away and we will be allowed to go back to our normal lives. Maybe so.

I think summer is finally here. I've had the air on now for a week.

God bless America,

LaJuana Gillette President 2023

Natural Gas Derangement Syndrome By [Ron Ross](#)

Aside from water, there may be no natural resource that provides more human benefit than natural gas. Yet Democrats, environmentalists, and the left see natural gas as a curse – however, it is far, far better than any of their “renewable” energy alternatives (wind and solar in particular).

They apparently forget that natural gas is itself solar energy; it exists because sunlight reached the earth millions of years ago. It’s as if it has been in storage waiting for humanity to learn how to access and make use of it.

Natural gas is easily transportable, storable, readily available, versatile, land-use efficient, out of sight, abundant, and energy dense (especially when compressed 600-fold and converted into liquified natural gas, LNG). Natural gas is ready to use as needed, unlike what’s true with windmills and solar panels, which always need to generate new energy.

In 2009, innovations in fracking (hydraulic fracturing) and horizontal drilling increased the recoverable reserves of natural gas at least tenfold, especially those reserves within our own borders. Almost immediately the price per British Thermal Unit dropped in the U.S. from \$10 to \$3 (where it has remained most of the time). The Democrat Party hates fracking and would ban it altogether if it could.

Windmills and solar panels [kill](#) millions of wildlife creatures every year, including eagles, owls, and bats. Windmills are noisy, unsightly, and require government subsidies, because the industry can’t turn a profit on its own. They are also land hogs.

Natural gas, in contrast, is land efficient. It is mostly below ground and out of view just like the pipe that brings gas to your home. Access to gas deposits requires drilling a hole in the ground about the size of a dinner plate.

Natural gas helps release land for other purposes. Most people aren’t aware that the primary raw material for fertilizer is natural gas. Fertilizer turbo-charges soil, often doubling crop yields. Our planet’s population has never been as well-fed as it is now, and natural gas has played a major role in making that happen.

What kind of worldview does it take to oppose such a blessing?

MARK LEVIN (HOST): And by the way, let's talk about radios for a minute. Ford is the latest manufacturer that says the future production of cars will not include the AM platform. Mister producer, you saw that, right? BMW has said it, others have said it because it interferes with something or other. They finally figured out how to attack conservative talk radio, mister producer, let me be the first one to say. Right at the manufacturer level, rather than going after us through the FCC, rather than going after us through legislation, rather than going after us through boycotting advertisers and all the rest, just don't make AM stations available in automobiles anymore because not all but most conservative talk shows are on

the AM band. That doesn't mean you won't have alternatives, of course. There are many alternatives, but that's not my point.

This idea that all of a sudden, you're gonna remove the AM band from cars, that's aimed at people like me, to prevent people like you from just turning on your radio as you drive in your own local area or general area and listen to the station. That's what that's all about. Oh, no, no, Mark, you can't prove that – I don't have to prove anything. I've been around long enough. I figure things out. We're way ahead of the curb here. That's exactly what they've done. That's exactly what they're doing.

S P O T L I G H T M E M B E R : S T E F A N I E M I C H E L S

My name is Stefanie Michels, and I am honored to be LBRW’s 3rd VP Membership Chair. I was born at Edwards, AFB in California, a very proud military brat of two veterans. I have been married for 25+ years to my husband Mike. We were set up on a blind date and the rest is history! The only children we have are the spoiled four-legged kind.

I have been a computer technician, mortgage underwriter and church ministry coordinator. My husband is in aviation, and we co-own an aviation technical consulting and inspection company. He does all the consulting and inspecting, and I do the books. He also travels all over the world and I try to go with him when I can.

We moved from California to Tucson in 1993. In the late 90’s we started coming to Buckskin State Park to play in the river. In 2001, we ventured to Lake Havasu City. We moved here full time in 2018, and split our time between work, volunteering, and playing on the water, mostly fishing! We love the small city feel of Lake Havasu and the weather. Yes - even the summers!

Mike and I enjoy traveling as much as possible and we cruise a lot! My motto is “always be booked”. I always have a cruise or a campground spot reserved. I also enjoy weightlifting, walking around the neighborhood, reading, and chilling by the pool on summer evenings. We attend Hilltop Church and love seeing church attendance growing.

I registered as a Republican at 18 after watching “The Great Communicator” Ronald Reagan! Soon after joining, I was able to flip my parents from Democrat to Republican. I joined LBRW in July of 2021 because I was looking for a club that was representative of my views and values and to surround myself with good people.

I am concerned about our eroding freedoms and how the younger generations are not understanding what is at stake once freedom is gone. I am passionate about the Second Amendment and our right to bear arms because if that right is taken away, we will no longer be the United States of America. I am thankful that Arizona is a Constitutional Carry State.

Media (including Fox News) boycotting mention of David Horowitz's bestselling new book

By [Thomas Lifson](#)

The book buying public may be snapping up copies of David Horowitz's newest book: [Final Battle: The Next Election Could be the Last](#), but the media's cultural gatekeepers are doing their best to prevent more people from buying it. A shameful case of suppression of conservative thought is underway. Mark Tapson writes at [Front Page Magazine](#):

It is the number one best-selling political book in the nation as recorded on Amazon's best-seller list. For three months it has been the number one best-seller in Amazon's "Elections" category, topping such powerhouse books as Alan Dershowitz's *Get Trump* and Florida Governor Ron DeSantis' new book *The Courage to Be Free*. Former President Donald Trump praised *Final Battle* as "Great!" and urged his followers to read it. He even named his presidential campaign "Final Battle."

Yet, as Newsmax points out, to date outside of Newsmax there has been no mention of *Final Battle* in the major media, including Fox News. The boycott extends to the leftwing best-seller lists, in particular the *New York Times* Bestseller List, the gold standard of book sales. *Final Battle* does not appear on the *Times* list at all. When I inquired, the publisher at Humanix Books told me that weekly sales of Horowitz's book "have been higher than other titles on the *New York Times* bestseller list, but the NYT has not yet included *Final Battle*. And they won't explain why not."

It no longer comes as any surprise to learn that the *New York Times* bestseller list ignores conservative books that outsell those the *Times* deems the nation's best-selling books. To anyone knowledgeable about the *Times*' track record in downplaying conservative books, the list is no longer the gold standard. Yet, the magic words "New York Times best-seller" continue to be the most-sought after endorsement in the publishing industry.

Tapson speculates as to why Fox has joined with the *Times* in suppressing mention of the book:

Why then the silence at Fox? Over the years Horowitz has put on posh events at the Four Seasons in Beverly Hills for Fox authors, including Jesse Waters, Greg Gutfeld, Brian Kilmeade, Pete Hegseth, Steve Hilton and Mollie Hemingway. According to Horowitz these authors are still his friends and not responsible for the boycott which has been imposed by Fox management.

A probable reason for their decision is the fact that *Final Battle*'s publisher Humanix Books is the publishing division of Newsmax Media, the cable news and digital media company founded by Christopher Ruddy in 1998 which happens to be the fastest-growing cable news network. Could Fox News be feeling the heat from Newsmax's booming popularity?

Another possibility is that Horowitz has been a consistent supporter of former President Trump from the moment the real estate and reality show mogul announced his candidacy back in 2015. He remains a Trump supporter for the upcoming election. Fox News was always wishy-washy at best about Trump, and now [even the Left recognizes that Ron DeSantis is the network's preferred candidate](#). Trump himself soured on Fox News after the media giant backed off from defending his claim that the 2020 election was stolen – a history-changing attack on the election process that Horowitz details in *Final Battle*. Could Fox News have decided not to promote an influential book that might empower a Trump presidential run?

The waters are very treacherous for any conservative author, even one so justly famous and well-regarded as David Horowitz. It is shame that polarization is causing conservatives to ignore others' conservative books.
